SPECIFICATIONS

Model 5851LF is a panel mounted valve with a polished chrome-plated vandal-resistant lever handle and rough brass body, mount to a maximum wall thickness capability of 1", and 3/8" IPS inlet and outlet.

APPLICATIONS

Easily adapted to many situations involving the use of drinking water. Specifically, this type of bubbler valve is used as a replacement valve for some Haws products, or may be placed in such settings as: schools, campgrounds, laboratories, classrooms, parks, and other areas where the need for a bubbler valve is needed to dispense water. Product is compliant to California Health and Safety Code 116875 (AB 1953-2006).
