

The Classic Series

Comfort meets Style.

Bullard[®]

The Bullard Classic Series hard hats and caps continue to be the most comfortable in the industry.

Protection

You'll find the Classic style workers prefer with a wide profile, giving superior protection from the elements. Featuring wider brims than most hard hats, Classic hats and caps offer increased protection from rain, snow, dust and harmful ultraviolet (UV) rays. The Classic hats/caps exceed ANSI Z89.1 2003, Type 1, Class E requirements.

Comfort

The six-point suspension, standard in all Classic Series products, has 1" (2.54 cm) wide nylon straps, offering increased balance and comfort. The full-profile shell also enhances ventilation.

Select either the RS6PC self-sizing suspension or the RS6RC Flex-Gear® ratchet suspension. Both suspensions feature an absorbent cotton brow pad for superior comfort. Vertical adjustment snaps on the front, side and rear positions of the headband form the basis for a truly customized fit without removal of the suspension.

Model C30R

Simplicity

The new, patented Bullard suspension is easier to assemble and adjust. The suspension snaps into the shell with an audible click. Users know it's assembled correctly, and it fits both cap and full-brim hat models.

Versatility

With two distinctive models from which to choose, Classic Series hard hat and cap styles offer unique benefits to the wearer. Versatile suspension provides the best fit and comfort in the industry. With Bullard, you'll find a wide variety of standard color offerings and the ability to match colors for large orders.

Model C33R

Delivery

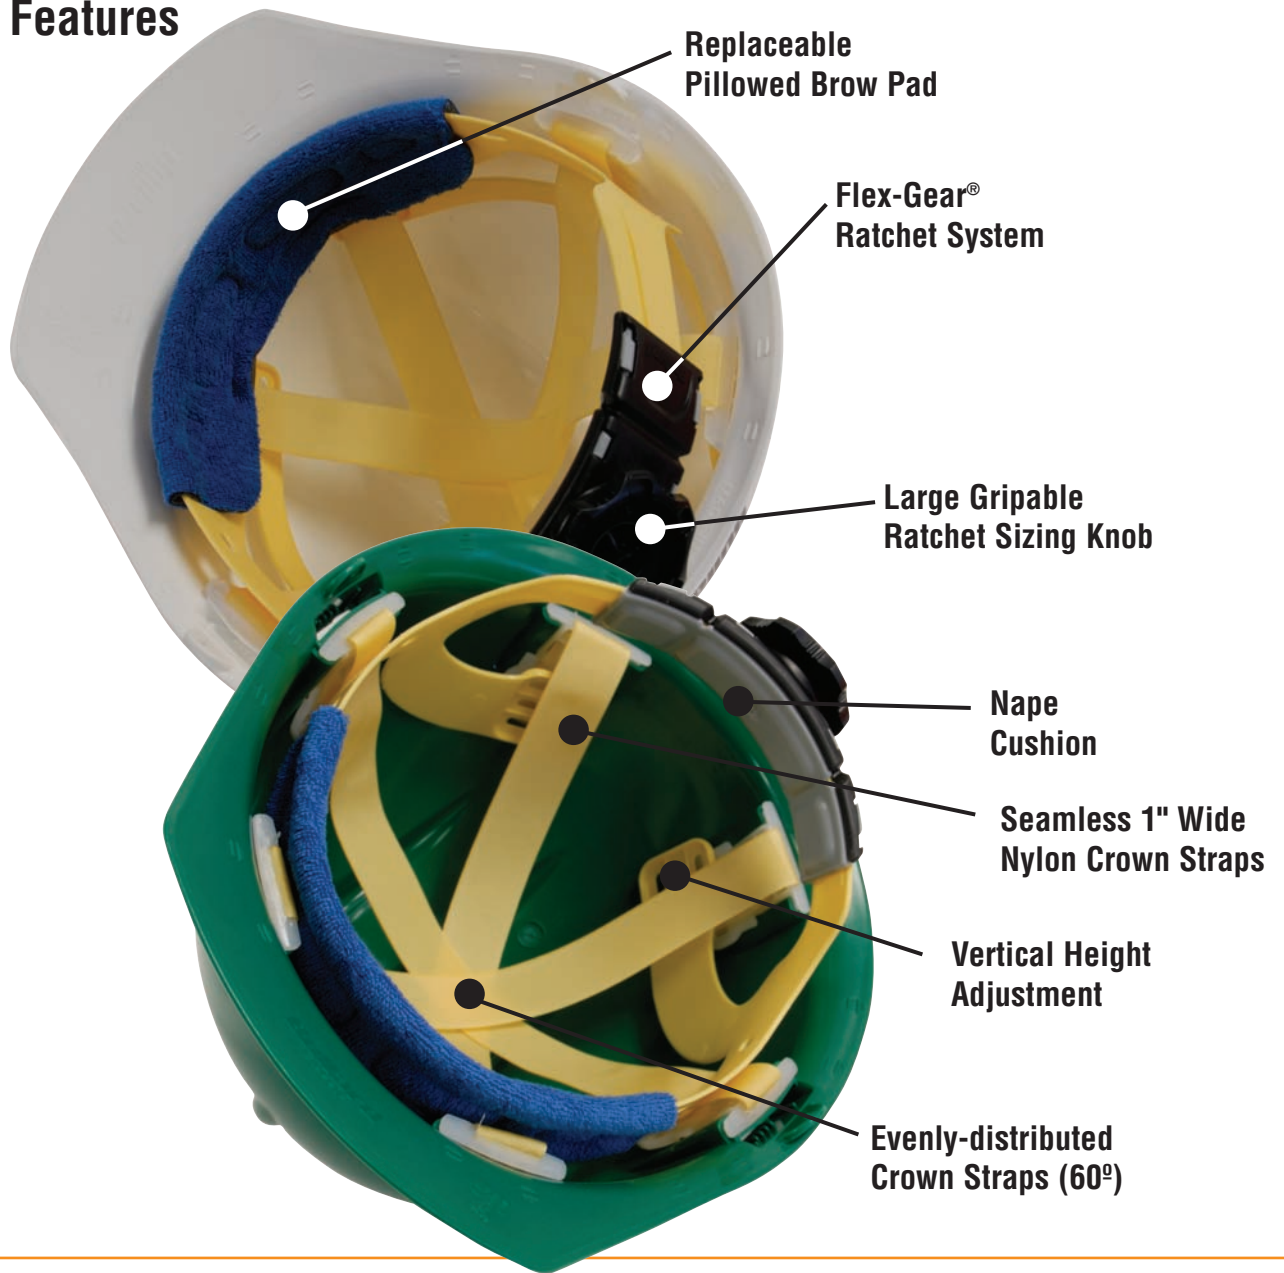

Bullard offers the quickest delivery in the industry.

**The Classic from Bullard.
The most user-preferred hard hat,
20 years and counting.**

Classic Features

2-Year Warranty

Demanding quality standards and leading-edge manufacturing processes allow Bullard to offer a two-year limited warranty – the longest in the industry. You can rest assured that you will receive the highest quality product with your Classic hard hat.

Customized hard hats: Put your hard hat to work for you!

The Bullard decoration program is the best in the industry. It has never been easier to customize your hard hat or cap. Here's why:

Quality Printing: Customized hard hats present your logo in the highest quality. Pad printed logos are permanent and will not peel, crack or fade like a decal or sticker.

Order Size: Only 20 piece minimum order required for custom logo work.

Pricing: No hidden charges! No set-up charges! No artwork charges!

Delivery: Shipment of a customized order within four days of receipt of a signed proof.

Vivid Colors: Our advanced pad print technology allows us to print crisp, clear logos in up to six colors.

Striping: Factory installable Scotchlite® stripes for improved visibility and worker differentiation.

Call your local Bullard representative or go to www.bullard.com for more information on decoration.

⚠ WARNING

These hard hats provide limited protection by reducing the force of falling objects striking the top of the shell. While they will provide limited protection in other parts of the shell, they are not designed to provide front, side, or rear impact protection. Avoid contact of the hard hat with electrical wires. Never alter or modify shell or suspension system. Always use Bullard replacement parts. Inspect your hard hat shell or suspension regularly. Make it a habit to check for cracks, frayed straps, and any sign of damage before putting on your hard hat each and every time. If you notice any sign of wear or damage, the shell and/or suspension should be destroyed IMMEDIATELY and replaced. If the hard hat has been struck by a forcible blow, it must be destroyed and replaced immediately, even if there is no visible damage.

Bullard products are manufactured to exacting specifications. Any alteration or modification of these products by the user may adversely affect product performance. This data sheet is in summary form only for easy reference. Refer to labels, instructions, and other literature accompanying the product for more complete details regarding use, maintenance, warnings, performance capabilities, complete specifications, and precautions. Failure to heed these warnings could result in death or serious injury.
