

RM10V

N95 NIOSH Particulate Respirators with Valve

Part	Description	Size
RM 10V	N95 cone respirator with exhalation valve	One size M/L

- 95% efficient respiratory protection in non-oil areas.
 - Maintenance-free construction.
- A: Inside filter for lower breathing resistance.
 B: Latex-free ultrasonic welded head-straps for secure seal.
 C: Adjustable aluminum nose clip with foam strip to reduce the potential for eyewear fogging.
 D: One way valve for easy exhalation.

Packaging:

Box: 10 pcs
 Case: 12 boxes

Standard:

This product has been tested and meets the NIOSH standard of N95. The main performance tests in this standard are: filter penetration & breathing resistance

Markings:

RM10V
 TC-84A-5460
 NIOSH N95

Usage:

Use Against:

NIOSH approved for protection against particulate aerosols free of oils. Pyramex recommends this respirator for use against particulates containing materials such as flour, iron ore, coal and minerals.

Do Not Use Against:

- Vapors, paint spray, oil-based aerosols, asbestos and sand blasting.
- Any contaminant whose concentration is unknown, or immediately dangerous to life.
- Concentrations of dust and mists which exceed the maximum use of concentration or 10 times contaminant's permissible exposure limit established by OSHA.
