## METAL DETECTABLE REUSABLE CORDED EAR PLUGS

### PART

**RPD2001\*** Metal Detectable Reusable Corded Earplugs

- NRR 23dB
- Reusable corded ear plugs are embedded with an iron ball for metal and magnetic detectability.
- Plugs offer three flanges of soft rubber polymers, forming a cozy seal for all size ear canals.
- The pre-molded earplug is constructed of flexible rubber wrapped around a pocket of air for superb comfort.
- Contains no latex.
- Material Declaration: the material above is not known to cause adverse affect to user hygiene or health, nor is likely to cause irritation, during normal use.
- Material Declaration: the product is not known, when subject to contact with sweat, earwax or with other materials likely to be found in the ear canal, to undergo changes within the lifetime of the ear-plugs.
- \*Exceeds ANSI S3.19 Requirements

### GENERAL SPECIFICATION

Plug Dimension: 2 cm x .7cm

Cord Length: 72cm

### PACKAGING

Box: 100 per

Case: 10 boxes

COMPONENT	MATERIAL
Plug	TP Rubber
Cord	Nylon Cloth
Metal Ball	Nickel
