

PROTECTS AGAINST FLASH BURN

- Ideal for use in welding areas
- Designed for peripheral personnel and visitors who are NOT exposed to direct IR radiation.
- Great for use under the welding helmet – allows welder to see his work clearly without suffering “welders flash burn” from surrounding welders.
- Enhanced VLT (Visible light transmission) allows 58% of visible light to be seen – Doesn't distort color like green shaded lenses.
- Blocks 75% of harmful IR radiation.
- Economical wrap-around single lens provides full panoramic view
- Soft, non-slip rubber temple tips provide non-binding fit
- Integrated nosepiece
- Lenses are coated for superior scratch resistance
- Lenses provide 99% protection against harmful UV rays
